

ANCHORED AIR SUPPORT & TRANSPORTATION

AVIATION CAPABILITIES STATEMENT

Execution Copy — Confidential

CORPORATE OVERVIEW

AIRO Anchored Air Support & Transportation commands executive travel networks, time-critical air freight operations, and heavy aircraft assets designed to eliminate transit bottlenecks, protect supply chain velocity, and ensure total regional independence. We establish private aerial pipelines to bypass commercial aviation scheduling vulnerabilities and public airport delays.

CORE COMPETENCIES

- **Secure Executive Air Mobility:** On-demand private charter coordination, secure manifest tracking, and flight route engineering to guarantee rapid regional and transcontinental transport for key leadership and enterprise partners.
- **Time-Critical Air Freight Logistics:** Rapid-response air cargo routing, hot-shot parts distribution, and secure asset tracking capable of moving critical technical components or microgrid hardware directly to remote development points.
- **Aviation Asset Maintenance & Airworthiness:** Strict airworthiness inspections, advanced avionics calibration, and hangar control frameworks to ensure absolute fleet readiness and long-term asset preservation.

CORPORATE IDENTIFIERS & PROCUREMENT CODES

| | | |
|--------|---|-----------|
| 481211 | Nonscheduled Chartered Passenger Air Transportation | PRIMARY |
| 488190 | Other Support Activities for Air Transportation | SECONDARY |
| 481212 | Nonscheduled Chartered Freight Air Transportation | SECONDARY |
