

ANCHORED HEAVY EQUIPMENT

CAPABILITIES STATEMENT LLC

CORPORATE OVERVIEW

Anchored Heavy Equipment LLC commands the absolute lifecycles, real-time telemetry, and tactical field allocation of high-capacity earthmoving assets, heavy crane rigging, and specialized industrial tools. We systematically eliminate equipment sourcing friction and logistical delays for Tier-1 infrastructure developments by maintaining a wholly owned inventory of heavy machinery.

CORE COMPETENCIES

- **Heavy Civil Earthwork Fleet:** High-capacity crawler excavators, articulating scrapers, smart GPS-guided dozers, and industrial compactors engineered for mass terrain shaping and rugged soil stabilization.
- **Structural Lifting & Rigging Engineering:** Symmetrical mobilization of rough-terrain mobile cranes, heavy telehandlers, and specialized industrial rigging configurations necessary to erect large-scale structural frames.
- **High-Yield Tooling Arrays:** Sourcing, engineering, and continuous field maintenance of high-capacity hydraulic attachments, rock crushers, and self-contained mobile repair units to handle field diagnostics directly on-site.

CORPORATE IDENTIFIERS & PROCUREMENT CODES

532412	Construction, Mining, and Forestry Machinery and Equipment Rental and Leasing	PRIMARY
811310	Commercial and Industrial Machinery and Equipment Repair and Maintenance	SECONDARY
238910	Site Preparation Contractors	SECONDARY

■ **Safety Compliance:** Strict Mine Safety and Health Administration (MSHA) & OSHA field standards.
